

U. S. Assay Office, Melter & Refiner's Department,

New-York, Feb 3^d 1857

My dear Sir,

The large wooden
frames for our precipitating
bats, are worn out, and I find
that I cannot replace them
in this city. The name of the
maker is obliterated. Will you
oblige me by filling his name
into the enclosed order, and
request him to fill the same
and send bill & duplicate
receipted, by express for
collection & thus oblige

Yours truly

Edward M. Kent
